12. Apollo 11 was the spaceflight _____ landed the first two people on the Moon.

VI. Read the following passage, and choose the best answer for each question.

Where will you go on your next vacation? Disneyland? Sea world? Outer space?

That's right; tourists are now paying big bucks to travel into space with astronauts! The first space tourist was Dennis Tito, an American businessman. In 2001, he paid about \$20 million to ride on a Russian rocket to the International Space Station. The Space Station circles 220 miles above Earth. Tito stayed on the station for a week, hanging out with astronauts and eating space food.

The latest space tourist was Anousheh Ansari, an Iranian-born woman from the United States who went to the Space Station in mid-September 2006.

How safe is space travel? Apart from the risk of crashing, space tourists have some special things to worry about. Earth's atmosphere protects us from dangerous radiation from the sun. Space travelers are

exposed to more of the sun's rays. But for tourists spending only few days or weeks in space, the radiation probably isn't harmful.

A bigger problem might be space sickness. Without Earth's gravity to hold them down, visitors to the Space Station float around inside the craft. It may look like fun on TV, but it can make first-time space travelers dizzy and sick. Luckily, the sickness usually wears off quickly. Then space tourists can enjoy their trip and the amazing view of Earth.

1. Travelling to space _____.
A. will be available to everyone
B. is not expensive
C. will be limited to the very wealthy
D. will be limited to the very poor
2. While in outer space it is likely that people will _____.
A. experience space sickness
B. not need space suits
C. will get a sunburn
D. make side trip to Mars
3. It is probably so expensive to travel to space because _____.
A. astronauts want to make a lot of money
B. astronauts food is very expensive
C. space equipment and fuel is expensive
D. there are high taxes on space travel
4. Why are space travelers exposed to more radiation?
A. They spacesuits are too thin to protect them.
B. They lack protection provided by Earth's atmosphere
C. They stay in the space for such a long time.
D. They float around inside the craft and have space sickness.

VII. Use the words given and other words, complete the second sentence so that it has a similar meaning to the first sentence. Do not change the word given.

1. My sister hasn't decided where to visit for her summer holiday. *mind*
My sister hasn't _____ about where to visit for her summer holiday.
